

Snack Preferences List

Our school will be providing snacks for your child(ren) this school year and we would like your input on the snacks we choose. Although it is impossible to always serve snacks every child likes, we do our best to choose things most children will like. We will not always choose snacks from this list but will most often refer to this list when making choices. Please circle any/all food you think your child would eat. If we have any food allergies then the list would then be limited to only foods that are allowed in each class.
